DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Graf et al. (US Patent Number 5,110,052).

Graf et al. disclose a pump wherein reciprocation of the head assembly causes the pump stroke, which causes the mixing of the liquid from the liquid chamber and air from the air chamber in the mixing chamber. Graf et al. disclose that the height of the liquid chamber is less than the height of the air chamber (see Fig. 2) and that the liquid valve can be shut off so that the end of the pump stroke has only compressed air flowing to clean the discharge nozzle (see column 9, lines 6-58).

3. Claims 12 and 13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Meshberg (US Patent Number 5,265,771).

Allowable Subject Matter

4. Claims 1-10 are allowed.
